ABOUT SASKATOON

The city of Saskatoon is favourably positioned with the South Saskatchewan River winding through it. Eight bridges span its gentle flow, linking east to west. An active city, residents and visitors alike flock to the Meewasin Valley trails, traversing sixty kilometres of pathways in all seasons. The city’s youthful vitality and cultural richness are evident in every neighbourhood, thanks in part to the University of Saskatchewan, where leading-edge technology such as the Canadian Light Source synchrotron draws the best minds from around the world.

The Farewell Dinner will specifically appeal to all art lovers attending the Congress, as it will be held in the Remai Modern Museum which has just opened its doors to the public in October 2017. This brand-new museum of modern and contemporary art offers a unique perspective on art and culture in the 21st century and houses the most comprehensive collection of linocuts by Pablo Picasso (1881-1973).

THE VENUE

Tcu Place
35 22nd Street East
Saskatoon, Canada
S7K 0C8

  - University of Glasgow, UK
  - University of Antwerp, Belgium
  - University of Pretoria, SA
  - University of Liverpool, UK

Separate symposia on Infectious diseases from an ecohealth perspective, Diagnostics, Surveillance and early detection for infectious diseases and Vaccination and Antimicrobial Resistance.

In September 2016, the World Health Organization officially declared antimicrobial resistance (AMR) as a global threat. Recognizing that the drivers of AMR are non-medical, global and a priority for all countries, we will discuss and deliberate how the current drivers have underpinned the emergence of AMR. Whilst there have been an understanding that we can once again kill. Misuse and overuse of antibiotics and antivirals. and scan the horizon for new antibiotics urgently need to be developed. The organizers of the 5th International One Health Congress can once again kill. Misuse and overuse of antibiotics and antivirals. and scan the horizon for new antibiotics urgently need to be developed. The organizers of the 5th International One Health Congress are aware, however, that AMR in a separate track should therefore be tailored for policy makers.
