

September 3, 2007

With great pleasure I would like to inform you that the Croatian Society for Infectious Diseases, at its annual meeting held in May 2007, has reached a unanimous decision to support the "One Health" initiative.

Namely, members of our society have, for decades, been closely cooperating with veterinarians, being aware of the extent to which zoonoses are present among infectious diseases.

Since all members of the CSID support your initiative, there is no need to list all their names, but you can use my contact details, as a representative of the professional society. I am looking forward to our future cooperation and I wish you success in the realization of your initiative.

Prof. Tatjana Jeren, MD, PhD
specialist in infectious diseases
President, of the Croatian Society for Infectious Diseases
