“FDA’s Coordinated Outbreak Response and Evaluation Network: A Multidisciplinary/One Health Approach to Foodborne Outbreak Investigations”

Friday, April 5
12:00-1:00 pm
Communique C1-15

Reception to follow C1-15 1:00 - 1:45 pm

Dr. Gensheimer joined the FDA in 2011 in a new senior position with the Office of Foods and Veterinary Medicine--Chief Medical Officer/Director of CORE. She has overall responsibility for leadership, policy development, decision making, strategic planning, and day-to-day operations for food-related outbreaks and food incidents affecting the public health of the nation and under the purview of the FDA.
